

# IRON COUNTY RECORD.

Vol. 18.

Cedar City, Iron County, Utah, Friday, June 9, 1911.

No. 25

## RIGHT OF WAY GRANTED.

Government Allows Company To Proceed With Construction.

Application in proper shape—Discrepancy Between Township Lines and Plats on Record to be Rectified.

The following letter and communication from the General Land Office in Washington D. C., was received a few days ago by the secretary of the Commercial Club and will be of interest to all who desire to see the "Dixie Route" built. It will be remembered that some time ago it was believed the right of way was being held up by the "men higher up," and the Commercial Club and influential men of the Southern part of Utah, through which the proposed road will run, got busy with the U. S. Senators to have them use their good offices for the securing of the right of way without delay. They did so and the results have been most gratifying. As will be seen the company is authorized to proceed with the construction of the road throughout the entire length without waiting further. The letter from Senator Sutherland and the communication from the General Land Office follows:

Washington, D. C., May 26, 1911.  
H. H. Hunt.

Referring to your communication relating to the right of way for the Utah & Grand Canyon Railroad Company, I enclose herewith a letter from the Commissioner of the General Land Office which is self explanatory. You will note that, while there is a discrepancy between the township lines as delineated on the plats filed and "township plats of record in the Land Office," the Commissioner says that the application is in the proper shape otherwise and that the "company is authorized to proceed with the construction of the line through the entire length without waiting the approval of the plat filed."

Yours very truly

GEO. SUTHERLAND.

Washington D. C., May 26, 1911.  
Senator Geo. Sutherland.

United States Senate.

Sir:

Referring to your request for information relative to the status of the application of the Utah & Grand Canyon Railroad Company for right of way under the act March 3, 1875, in the Salt Lake Land District, Utah, you are advised that an examination of the maps filed in connection with this application shows a slight discrepancy between the township lines as delineated thereon and the township plats of record in this office. The maps are therefore this day being returned to the Register and Receiver at Salt Lake City with directions that they be forwarded to the company in order that the discrepancy above noted may be corrected. The application in other respect is in proper shape and no reservations or withdrawals of any kind appear to be effected by the proposed right of way. Under the act, therefore, the company is authorized to proceed with the construction of the line throughout its entire length without awaiting the approval of the plats filed.

Respectfully

FRED DENNETT  
Commissioner.

## NO SECRET ABOUT THIS!

Did you read the other day about a certain prominent Mail Order merchant who was fined a large round sum by Uncle Sam for defrauding people through the mails? He advertised a so called vacuum cleaner which didn't clean. The government brought together at great expense a number of persons from various parts of the country, who testified to the worthlessness of the device. It cost Uncle Sam money, but he got it back in the fine paid by the Mail Order merchant.

The worthless vacuum cleaner cost these witnesses and many others money, but they didn't get it back, and they never will.

Plenty of other such concerns are working other frauds upon the public. Persons who buy a pig in a poke can expect to get bitten.

It is no secret that the country is populous with people who have been bitten by the Mail Order pig.

Here's the secret of satisfaction in buying things: Trade at once, where you can see what you're getting for your money.

### Gunlock Notes.

about crop looks very promising and grain doing fine.

No sickness in these parts. All is peace and quiet and sunshine.

The greater part of our neighbors have again moved onto their rangelands.

Cattle coming up from the winter range look well. They are increasing so fast however that our summer range is over stocked.

Dixie is still anxiously looking for "that railroad" so that a market may be opened for our surplus products. Do we look in vain.

The woman of today who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If your digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it.

For sale by Palace Drug Co.

We note with much interest the way some of our enterprising local dealers are putting forth every effort this spring to make their stores attractive. This week The Cedar Mercantile and Live Stock Company whose progressive policy has been strongly shown this spring by their large, attractive advertisements in our columns, have a fine window devoted entirely to house paint.

On close inspection one finds not only the usual display of paint cans, but long cards showing rows of houses in new and handsome combinations of colors for exterior painting. An attractive window border brightens the appearance of the whole store and draws much attention from the passers-by. It attractively illustrates how easily and well any shabby surface in or about the house can be fixed up.

Cedar Mercantile & Live Stock Co. deserves much credit for this window and we are sure it will prove of much benefit in reminding people of the many things around their homes that can easily be beautified at house-cleaning time.

### Salt Laker Believes

In Iron County.

by the fact that so are investing most

gentleman, J. A. Audous, purchased a large acreage of land Kanarra and has broken up or 40 acres this spring, has considerable, and is still at work proving and preparing for this fall. Mr. Audous has faith in the arid farm project and believes the land in this is as good as can be found state. He will not let the grow under his feet but busy till he has his entire land under cultivation.

There are other parties who have secured land at Lake who have secured land at Mr. Audous, who will be and cultivate it in the near future and when they have it all fence and cultivation will make out of the best arid farms in Iron County.

Whooping cough is not dangerous when the cough is kept loose and expectoration easy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of disease with perfect success.

## The Races.

The races which have been so widely advertised were pulled off as per schedule, and with the exception of one or two all races were run, with slight changes. The horses were well worth running for, and some good horses competed. Outside of the 1/4 mile race Tuesday afternoon every race was won by a Cedar animal. This is the only purse carried off by visiting horsemen.

The races were conducted in an orderly manner, there being no great amount of jangling, and what little there was being handled by strangers who thought things were not going their way. Everything was clean and above board, although some of the outside element claimed it was all Cedar and no one else had a look in. They had lost considerable money on their horses and no doubt felt a little sore as is always the case when a person loses.

During the entire three days races there was but one accident, and that happened in the first race Tuesday afternoon. Archie Spillsbury of Toquerville was riding a three year old, and the race had no sooner started than the animal flew the track and began to buck. He pitched Mr. Spillsbury off causing him to light on his head and shoulder, rendering him unconscious for a considerable length of time. He was taken to town where medical aid was secured and he was brought home.

## Summary of School Work.

The following summary of the work done by the district school the past year is interesting reading. Every parent in the city should carefully peruse it and answer either personally or publicly the question propounded at the end of the article:

Editor Record:

There follows a short report of what we have done in our district schools the past season:

We had an enrollment of 470 pupils, 242 boys and 228 girls. Fifty out of the number were retained and 10 boys and 13 girls were graduated; all the rest were promoted to higher grades. We had 3 male and 10 female teachers besides a gymnasium instructor. There have been nine parents visit the schools. Two trustees have paid us visits, one of them once and the other some seven or eight times. One trustee has not been with us at all this season.

This has been a banner year for improvements. The sidewalks and yard walks have been paved; a principal's office snugly fitted up with desk and telephone; a sanitary drinking fountain has been placed on the grounds; the children now march to the music of a fine new piano; lavatories have been remodeled and a cesspool dug. In all we have been slowly but surely improving.

The management of the school has

school during the year. We believe in them. There has been some truancy which parents should do everything to help put down. All together we feel that the year has been a successful one.

Let us know what you think about it.  
E. B. DALLEY,  
Principal.

### To Fight Whisky.

The parents' classes of the two wards have met and appointed committees to work with other organizations to prepare for the coming election on June 27 to see whether or not Cedar will be "wet" or "dry" so far as whisky is concerned. They will put up a strenuous fight and it is expected that "dry" will be result obtained from election. They are already at work urging all to see that their names are upon the registration list. From the census they have made it is shown that nearly a hundred persons in district No. 2 have not been registered, and there are considerably over a hundred in district No. 1.

### Low Point Touched

Sheep received here this week 35,400. The market has descended this week as fast as it went up last week, and just as far. The low point was touched two days ago, and the situation has been a little better yesterday and today. Spring lambs are now worth \$7.00 for best, clipped lambs up to \$6.60, clipped wethers \$3.75 to \$4.25, ewes \$3.50 to \$3.85, goats \$2.75 to \$3.35. Goats are a drag on the market. Some fat goats could not be sold to killers this week, and went to the country at \$3.35.

### Grand Party.

A party will be given Friday evening in the Ward Hall in honor of the retiring Bishopric and their successors. All over eighteen years of age are invited. The East Ward ladies will serve refreshments. There will be a program and dancing.

### STAKE OFFICERS.

If you want your choice in summer hats call immediately. My last shipment has been received and is going fast. Your last chance to get the latest fashions for summer wear.

MRS. C. S. WILKINSON.

Representatives from all the surrounding towns were here to attend the races, and seemed satisfied with the treatment they received and most of them say they will come again.

A number of the ranchers are moving to the mountain this week.
